

Extra Annual Meeting Chalmers Women's Association
2022-08-26

By Josefine Nord with addition of Matilda Arvidsson

Change to broken fiscal year (second reading):

Background:

Right now, Chalmers Women's Associations have a default fiscal year from January to December. This is the standard way that most businesses and associations use. However, there are other associations at Chalmers who are using a broken fiscal year because their election of new board members does not follow a normal year. For example, the board of the IT-division have a fiscal year that starts in July and ends in June.

Suggestion:

I suggest that Chalmers Women's Association should send a request to Skatteverket to change to a broken fiscal year, that will range from 1 of Mars until the last of February. I also suggest that we should change CWAs by laws if/when Skatteverket approves the application. The main reason for this change is to make the accounting for the association easier to understand.

Approved addition from last Annual Meeting by Matilda Arvidsson:

The mandate for the members of the board of Chalmers Women's Association should follow the fiscal year.
